

## 1185 Manuka Honey

New Zealand Manuka Honey has a well deserved world-wide reputation based on extensive research. Manuka Honey is in high demand and limited supply particularly for higher UMF grades, making it rare and exclusive.

## 100% PURE AND NATURAL

- Manuka Honey is cultivated from bees foraging New Zealand’s native manuka bush and wild flowers. Amber in colour, Manuka Honey has the unique flavour of manuka nectar.
- Wild Flower Honey is cultivated from bees foraging New Zealand’s native bush and pastural flowers. Amber in colour and smooth, Wild Flower Honey has a rich, floral flavour.
- Creamed Clover Honey is cultivated from bees foraging New Zealand’s pastural clover flowers. Light and creamy. Creamed Clover Honey has a flavour profile that is delicate and sweet.
