

Kaipara Oysters

With a large, deep-cupped shell, Kaipara oysters have an aroma and flavour that encapsulate the pristine Kaipara waters: the smell of fresh ocean spray accompanied by a creamy textured meat that has notes of citrus and a fresh cucumber finish.

Kaipara Oysters

ORGANIC CERTIFIED

Experts say the secret to a perfect oyster is to present it in its peak condition. But in most cases, oysters are farmed a considerable distance from their end-consumer. To overcome this considerable hurdle, Kaipara Oysters are 'snap-frozen' at their neighbouring state-of-the-art processing facility the moment they reach their peak condition. This locks in all the natural taste and healthy nutrients.

- Sustainably produced
- Organic-certified
- USFDA & EU approved
- Foodservice packs
- Beautiful retail ready packs
